4–5 × models + 1 × demo	1 × quiz, 1 × theory test, 1 × practical assessment	None	Industry-recognised

About this course

BB Glow gives clients an even-toned, radiant complexion that looks like a light foundation, without having to apply one every morning. It's a popular add-on for therapists who already offer skin treatments.

This course is for therapists already working in the industry. You'll refresh your understanding of the skin, then learn the science behind BB Glow, the needling device and needles, serum selection and the full treatment protocol.

You'll cover how clients should prepare before treatment, contraindications, troubleshooting and aftercare advice.

After a live demonstration from one of our expert trainers, you'll practise on live models.

By the end you'll be able to perform BB Glow treatments safely and confidently. Prior skin knowledge is required. We recommend completing our Advanced Microneedling & Skincare course first, or you can enrol with an existing skin or beauty therapy qualification. Proof of prior skills required.

What's covered

◆ Anatomy of the Skin ◆ The Science of BB Glow ◆ Needling Device & Needles ◆ Serum Selection ◆ Treatment Protocols ◆ Client Preparation ◆ Contraindications & Aftercare ◆ Safety & Hygiene ◆ Troubleshooting ◆ Product Knowledge ◆ Pricing ◆ NZ Health Protection Licence Help
