|---|---|---|---|
| 6–8 × models | 2 × quizzes, 1 × theory test, 1 × practical assessment | None | Industry-recognised |

## About this course

*Brazilian waxing is one of the highest-value services on a waxing menu, and one of the most loyal: clients who find a tech they trust rarely go anywhere else. That trust comes from technique, speed and professionalism.*

This intermediate course is for waxing techs who already have the basics and want to add intimate waxing to their menu.

You'll refresh the science of hair growth and wax selection, then focus on intimate work: using hot and hybrid wax on coarse, dense hair, client positioning, working quickly and hygienically, and keeping your client comfortable and at ease throughout. Consultation, contraindications, troubleshooting and pre- and post-care are covered in detail.

Our trainers demonstrate the full service before you practise on live models with a range of hair growths and textures.

Prior waxing experience is required. We recommend completing our Full Body Waxing course first, or you can enrol with an existing waxing certification. Proof of prior skills required.

## What's covered

- Types of Wax
- Anatomy of the Hair & Hair Follicle
- Hair Growth Cycle
- Hair Growth Types
