LIVE MODELS	ASSESSMENT	HOMEWORK	CERTIFICATE
3 × models + 1 × demo	1 × theory test, 1 × practical assessment	None	Industry-recognised

About this course

Brow lamination is the treatment behind the brushed-up, fluffy brows clients bring in as screenshots. It sets the brow hairs in place for weeks, making sparse or unruly brows look fuller and more uniform, and pairs perfectly with hybrid dye for a finished look.

You'll learn the structure of the hair follicle, the purpose of lamination and how it works on the hair, then how to map, shape and design the brow before you start.

From there you'll learn the full lamination process, followed by hybrid dye: how it differs from tint and how to colour match for each client. Consultation, contraindications, patch testing, hygiene, troubleshooting and aftercare are covered throughout.

After a live demonstration, you'll practise on live models with different brow types.

By the end you'll be able to perform brow lamination with hybrid dye on paying clients. No prior experience required.

What's covered

- Structure of the Hair Follicle
- Purpose of Brow Lamination
- Basic Brow Mapping
- Brow Shaping & Design
- Consultation & Contraindications
- Patch Testing
- Lamination Technique
- Hybrid Dye vs Tint
