LIVE MODELS	ASSESSMENT	HOMEWORK	CERTIFICATE
8 × models + 1 × demo	3 × quizzes, 2 × theory tests, 1 × practical assessment	None	Industry-recognised

About this course

The fastest way to start a lash and brow business. In four days you'll learn the services clients book most often (lash lifts, brow lamination, tinting, hybrid dye and henna) and leave with a menu you can start taking bookings for straight away.

You'll start with the science: the anatomy of the eye, the anatomy of the hair follicle and the stages of hair growth, and how to check for eye conditions and contraindications.

From there you'll learn brow mapping so every brow treatment starts with the right shape, then brow lamination, lash lifting, and the three ways to add colour: tint, hybrid dye and henna, with colour matching for each client. Patch testing, eye safety, product knowledge, troubleshooting and corrections, sanitisation and aftercare are covered throughout.

After a live demonstration of each service, you'll practise on live models under expert guidance.

We finish on the business side: pricing your services and building a menu clients rebook.

By the end you'll be able to perform lash lifts, brow lamination, tinting, hybrid dye and henna on paying clients. No prior experience required.

Where this course can take you
