LIVE MODELS	ASSESSMENT	HOMEWORK	CERTIFICATE
6 × models + 1 × demo	4 × quizzes, 1 × theory test, 1 × practical assessment	None	Industry-recognised

About this course

Brows are one of the most booked services in any salon, and a tech who can offer the full brow menu (shaping, lamination, tint, henna and hybrid dye) can build a book of clients who come back every few weeks.

This three-day course covers it all. You'll start with the anatomy of the hair follicle and growth cycle and brow mapping fundamentals, then learn the types of wax and how to shape and wax brows cleanly.

From there you'll move into brow lamination and the three ways to add colour: tint, hybrid dye and henna, including how they differ, how to colour match, which suits each client, and how to combine treatments for the best result. Consultation, contraindications, patch testing, hygiene, product knowledge and aftercare are covered throughout.

After a live demonstration of each treatment, you'll practise on live models with a range of brow shapes, hair types and colours.

We finish on the business side: pricing your brow services and building a menu clients rebook.

By the end you'll be able to perform the full brow menu on paying clients. No prior experience required.

What's covered

- Anatomy of the Hair Follicle & Growth Cycle
- Brow Mapping Fundamentals
- Types of Wax & Waxing Rules
- Basic Brow Shaping & Waxing
- Pre & Post Wax Care
- Brow Lamination
- Brow Tinting
