10am – 5pm · over 4 weeks

FORMAT

In person at our East Tamaki academy

LIVE MODELS

6 x models

ASSESSMENT

1 theory test, 5 x practical assessments

HOMEWORK

3 x homework assignments

CERTIFICATE

Industry-recognised

About this course

This is the full pathway. Ten days, seven disciplines, and a complete enhancement menu at the end of it — everything you need to walk into a salon or open your own doors.

You'll start from the ground up. Nail anatomy, disorders and nail health, client consultation and contraindications, the legalities of working on paying clients, professional prep, filing and buffing, and sanitisation to salon standard. Get these right and every service that follows sits on solid ground.

From there you'll build through the systems in order. Gel polish, from base coat to a chip-free cure, with troubleshooting and safe removal. Gel X, one of the most requested services on any menu — sizing, fitting, seamless application and soak-off removal. Builder gel, for strength, structure and the structured manicure clients rebook for.

Acrylic extensions, taught from the chemistry up and built around our signature Acrylic Flow Method, which places the first bead at the cuticle so the product flows toward the apex, giving you a correct apex and C-curve every time.

Then the two skills that set you apart: e-file work, the single biggest upgrade to your speed and your client's comfort, covering bit selection, RPM control, prep, fast removals and Russian manicures — and fifteen styles of nail art, where brush control, layering and colour placement turn a service into a signature.

Throughout, you'll learn rebalancing, infills and repairs — the appointments that fill your column month after month — and finish on pricing your services profitably and building a beauty career rather than a job.

The course builds in sequence, so nothing is assumed. No prior experience required.

Where this course can take you

CAREER OPPORTUNITIES

- Work as a nail technician in a salon
- Open your own nail salon, home studio or mobile business
- Offer a complete enhancement menu from day one

YOUR NEXT STEP

Manicure & Pedicure
