LIVE MODELS	ASSESSMENT	HOMEWORK	CERTIFICATE
4 × models + 1 × demo	1 × quiz, 1 × theory test, 1 × practical assessment	None	Industry-recognised

About this course

Dermaplaning is one of the easiest skin treatments to add to your menu, and one of the most satisfying for clients. It removes dead skin cells and fine vellus hair in a single session, leaving skin instantly smoother and brighter, with makeup sitting flawlessly afterwards.

You'll refresh the layers of the skin and learn how dermaplaning works on it.

You'll cover the benefits of the treatment, the different blades, tools and products available and which are right for you, and how to choose suitable clients through consultation and contraindications. From there you'll learn the step-by-step treatment with a safe, controlled technique, plus troubleshooting and aftercare advice.

After a live demonstration from one of our educators, you'll practise on live models under expert guidance.

By the end you'll be able to perform dermaplaning confidently on paying clients. No prior experience required.

What's covered

- Anatomy of the Skin
- How Dermaplaning Works
