LIVE MODELS	ASSESSMENT	HOMEWORK	CERTIFICATE
3 × models + 1 × demo	2 × quizzes, 1 × theory test, 1 × practical assessment	None	Industry-recognised

About this course

Volume is where lash artistry really starts. Hybrid and volume sets let you build fuller, softer, more dramatic looks than classic alone, and they command the highest prices on a lash menu.

This course is for lash techs ready to move beyond classic. You'll refresh the anatomy of the eye and the eye conditions and contraindications to check for, then learn hybrid application, blending classic and volume for a textured finish, and how to hand-make fans for volume and mega volume sets: picking up the right number of lashes, spreading an even fan and attaching it cleanly.

You'll learn lash mapping and how to design custom looks for each client's eye shape, adhesive knowledge and allergy awareness, and how to isolate and apply safely to protect the natural lash. You'll also learn infills and safe removal for volume sets. Troubleshooting, product knowledge, hygiene and aftercare are covered throughout.

After a live demonstration, you'll practise on live models under expert guidance.

By the end you'll be able to perform hybrid, volume and mega volume sets, infills and removals on paying clients. Prior classic lash experience is required. We recommend completing our Eyelash Extensions: Classic course first, or you can enrol with an existing lash certification. Proof of prior skills required.

What's covered

- Anatomy of the Eye
- Consultation
- Eye Conditions & Contraindications
- Lash Mapping
- Custom Lash Designs
- Adhesive Knowledge & Allergy Awareness
- Hybrid Application
- Volume & Mega Volume Lash Techniques
