In person at our East Tamaki academy

LIVE MODELS

1 x model

ASSESSMENT

No formal assessment

HOMEWORK

None

CERTIFICATE

Industry-recognised

About this course

Every nail service rests on the same few skills: reading the nail, prepping it correctly, and filing with control. Get those right and everything else sits on solid ground.

This one-day course suits anyone new to nails, and anyone heading into one of our intermediate courses who wants to arrive able to keep up rather than catching up.

You'll cover nail anatomy, disorders and contraindications, nail health and nutrition, and the nail systems used across the industry — then move onto professional prep, and filing and buffing practised on a live model until it's clean and repeatable. Sanitisation and sterilisation to salon standard is covered throughout.

By the end you'll prep and file to a professional standard, and you'll meet the entry requirement for our intermediate nail courses. No prior experience required.

What's covered

◆ Anatomy of the Nails ◆ Disorders ◆ Nail Health ◆ Nail Nutrition ◆ Nail Systems ◆ Nail Preparation & Filing & Buffing Techniques ◆ Sanitisation ◆ NZ Health Protection Licence Help

Where this course can take you
