2 × models	1 theory test, 3 quizzes, 1 × practical assessment	None	Industry-recognised

About this course

Learn to deliver a flawless, long-wearing gel manicure from start to finish.

This course takes you through the foundations of nail health and anatomy, professional nail prep, filing and buffing techniques, and salon-standard sanitisation and sterilisation.

You'll master gel polish application from base coat to cured, chip-free finish plus how to troubleshoot lifting, peeling and premature wear, and remove gel safely without damaging the natural nail.

We also cover the business side: pricing your services profitably, and the essentials of starting out in the beauty industry.

By the end, you'll be able to confidently perform a full gel polish service on a client, with a finish that lasts two to three weeks.

No prior experience required.
