2 × models	1 theory test, 1 × quiz, 1 × practical assessment	None	Industry-recognised

About this course

Gel X has quickly become one of the most in-demand services on any nail menu. Clients ask for it by name — it's lightweight, looks natural, applies in a fraction of the time of acrylic, and it's gentle on the natural nail when done correctly. For a tech starting out, it's one of the fastest ways to fill your books and command a good rate.

This course starts with the foundations: nail anatomy and health, nail systems, professional prep, filing and buffing, and salon-standard sanitisation and sterilisation.

You'll then learn to size and fit tips, prep for maximum adhesion, apply and cure for a seamless, lift-free finish, and shape the final set — plus safe soak-off removal that leaves the natural nail intact. We also cover pricing your services profitably and the essentials of starting out in the beauty industry. By the end you'll be able to apply a full set of Gel X on a client. No prior experience required.

What's covered

◆ Foundations of Nails ◆ Nail Prep ◆ Nail Systems ◆ Filing & Buffing Techniques ◆ Sanitisation & Sterilisation ◆ Intro to Beauty Business ◆ Pricing ◆ Gel X ◆ Prep ◆ Gel X Application ◆ Gel X Removal ◆ NZ Health Protection Licence Help
